- ☐ Practice is eligible for stabilizing the grade and controlling the gully erosion and must be maintained for ten years.
- ☐ Cost share is eligible for earthwork, smooth steel pipe, anti-seep collars, water supply line, and seeding of dam and the area disturbed during construction. Cost share may also be eligible for a water supply source and fencing for excluding livestock.
- ☐ A current soil test may be submitted to develop a plan.
- ☐ Seeding rates vary. No practice may be seeded from October 15<sup>th</sup> through December 15<sup>th</sup>. Pay close attention to the seeding chart and seeding dates attached to your plans.

Cost share is also not eligible for structures in forested areas or in recently cleared areas, subdivisions, property owners with less than three acres, or property with less than \$1000 worth of ag income produced off the site.
